with customized Dressing Change Trays

Innovative Centurion products improve patient care

Centurion Dressing Change Trays are customized to your exact specifications. They also promote consistent techniques and product usage to help:

- Protect the patient
- Provide a proven bacterial barrier
- Meet a 7-day dressing protocol, reducing dressing changes and thus lowering the risk of infection
- Save clinician time
- Improve patient outcomes
- Standardize procedures
- Contain costs

Centurion Dressing Change Trays are specifically designed for all types of catheter sites, including:

- Subclavian
- Internal Jugular
- PICC Lines
- Femoral
- Epidural
- Implanted ports
- Oncology and antibiotic therapy administrations
