

## CVC Catheter Securement Anchor System

### CENTURION® Tubing Anchor

- Pliant material allows simple application
- Universal tubing anchor accommodates larger lumen lines
- Flexibility in placement – allows placement farther away from the insertion site, reducing the risk of CRBSI Infections
- Holds more tubing lines than competitors'

### CENTURION® CVC Securement Anchor

- Takes the guesswork out of positioning
- Simply “snaps” into place – intuitive, easy application

To be used with double or triple lumen catheters only
