

CONTRACT PACKAGING

Multiple Solutions for your Medical Device Packaging

Simply supply us with your device and we'll provide you with a professional, private-labeled sterile packaged device ready for market. If you prefer, we can even procure components for you so you can take advantage of our vast resources and immense purchasing power. We provide custom packaging configurations and custom multi-colored graphics that are specific to your individual needs. Custom kitting is also available with a large selection of in-stock components from over 4,000 suppliers. Centurion simplifies it all by offering you a fully integrated, single source solution for all your packaging needs.
