**INSTRUMENT RECYCLING
& REBATE PROGRAM**

PROGRAM #

1

Reliable. Rewarding. ROI.

Our instrument recycling program provides you with the best renewed medical tools in the industry. And that really matters, because relying on us equips you for those times when a patient depends on you most.

INSTRUMENT RECYCLING & REBATE PROGRAM

PROGRAM #

1

CENTURION
MEDICAL PRODUCTS

Our instrument recycling program is easy and rewarding, allowing you to turn your instruments into cash and save money by reducing your waste disposal costs. After each instrument is used, the item is properly disinfected and placed in the collection container we provide to you. Once the container is filled, we collect it and send it to our reprocessing center. High performance instruments are reprocessed with precision and care and are then pre-tested for guaranteed performance. You'll be rewarded with a rebate check and the peace of mind knowing you're reducing landfill and waste.

Free collection containers and pick up • Eliminates instrument disposal costs
Reduces landfill and raw material usage • Rebates issued for returned instruments

**SOILED LINEN COLLECTION
& LINER RECYCLING PROGRAM**

PROGRAM #

2

Simple. Effective. Efficient.

Our closed-loop system makes soiled linen disposal effortless for you and easy on the environment. And that really matters, because recycling is a less expensive alternative to clearing more land for new landfills.

SOILED LINEN COLLECTION & LINER RECYCLING PROGRAM

MEDICAL PRODUCTS

Our soiled linen collection and recycling program is seamless. We station specially designed hampers in your facility for depositing soiled linen. Because we know you have your hands full, we equip our hampers with pedal-activated lids. We offer three hamper sizes, so pick the one that best fits your needs. All of them meet JCAHO standards. All of them hold impervious bags, which are easily melted down and made into new bags – an important step for keeping operations green. The neat part of the program comes in our cost-savings – our service assists you with increasing your efficiencies and reducing your medical waste disposal costs.

Reduces manpower costs and lowers medical waste
Centurion provides hampers at no charge

RENEW. RECYCLE. REWARD!

These three words drive the green business philosophy of Centurion Medical Products.

More than 30 years ago, we developed a recycling program that would benefit you and the environment. Today, medical facilities in 23 states, including cities such as Chicago, Los Angeles and Miami, benefit from our cost-saving plans. Specifically, we RENEW medical tools to fit your requirements which reduces the overall cost of instruments. We RECYCLE your soiled linen liners to reduce raw material usage. Then, you reap the REWARDS through our trusted reimbursement plan. A partnership with us reinforces your commitment to quality patient care and the health of our environment, too.
