The new SorbaView® SHIELD Oval is the latest addition to our line of superior catheter securement dressings. The large window and border are specifically designed to accommodate bulky catheters and Huber needles.
OVAL BENEFITS:

- SorbaView SHIELD Oval was specifically designed with a larger window and border to accommodate bulky catheters and Huber needles.
- Closure piece designed to complement dressing profile while providing additional securement.
- Larger window accommodates smart routing of catheter.

GENERAL BENEFITS:

- Shield Technology™ provides effective catheter securement and stabilization as part of the normal dressing procedure – no extra steps needed.
- Establishes a standard of care and eliminates inconsistent methods of securement.
- Using one product instead of two lowers costs.
- Prevents catheter movement and dislodgement.

CENTRAL LINE BENEFITS:

- Easy to apply – won’t stick to itself during application.
- 7-day wear time means fewer dressing changes and reduced labor costs.
- Provides proven barrier against bacteria and contaminants, lowering the risk of Central Line Bloodstream Infections (CLABSIs).

INNOVATIVE SOLUTIONS FOR LARGE AND BULKY CATHETERS

Huber Needle, Site: Subclavian
